

ALPHABETA

We founded AlphaBeta in Monaco in 2018 on the basis of a consolidated experience of more than 125 projects for children around the world during the last fourteen years. Our style is to do small projects to help the highest number of children in the areas of education, health and living conditions in poor areas of the world.

Our concept is to convert 100% of donations into children's projects by working for free, traveling at our own expense, not doing paid advertising, managing the website and accounting for free.

An important principle for us is to work with local people understanding and respecting their cultures to achieve together projects that will continue to live in time (with our timely assistance if necessary).
