

INSIDE MADAGASCAR

INSIDE MADAGASCAR aims at protecting the vanilla planters and producers in the District of Antalaha in North East of the country (SAVA region) by ensuring fair pay for the producers and the promotion of social development in the Community, according to the principles of fair trade.

Our main project is to develop and implement a certification system ensuring the quality and tractability of vanilla, so that the planters will gain back being the main actors in the production chain, instead of middlemen taking the biggest cut of value created along the process.

The objective is for planters to once again enjoy the wealth of their land, and for their hard work to be rewarded by individual and community development.

Domaines d'intervention :

Education-Training, Environment

Pays d'intervention :

Madagascar

Type de structure : Association

Comment aider :

Voluntary-Charity Work, Financial donation, Donation of supplies and equipment

Année de création : 2019
