

LA MAISON D'ARTHUR

Arthur, born and raised in Monaco, shared his life between his strong attachment to Monaco, his home country and his love for Senegal where he built his house and started a volunteer and humanitarian work. His unexpected passing at a very young age led Virginie, his mom, to create a charity work she decided to call "La Maison d'Arthur" in order to continue the projects her son had started.

Therefore, we, the charity, will continue his work focusing on three projects:

- Mbeut's school: Mbeut is the village where Arthur's house is. The needs are huge.
- Diamniadio's hospital: our focus will be on the maternity and pediatric ward.
- Education including sport. As of today, a partnership is established with the charity "Pulse Africa" around basketball, the sport Arthur used to play.

The Arthur's house remains a property of his family and will be used to lead the actions on the field whenever it will be necessary.

Our main goals and missions are to BRING ARTHUR'S HOUSE AND PROJECTS TO LIFE.
